December 10, 2001

Dear Sir/Madam:

Pharmacia Corporation is interested in participating in the pilot project involving the testing of the Patient Profile Viewer (PPV). We expect that Pharmacia's Global Statistics and Programming (GSP) organization will be the primary interface in this effort even though this request for participation has the strong support of our Regulatory Affairs colleagues.

Pharmacia has significant experience with CrossGraphs. Tom Schneider of our GSP organization has interacted with Randy Levin previously. I personally had extensive working relationship with Dr. Szarfman and am quite familiar with the objectives of the PPV. We feel that with our strong electronic submission experience and our subject matter knowledge, we will be able to make substantial contributions to this pilot project.

Thank you for your consideration. Please do not hesitate to contact us if you have any question or need any additional information from us.

Sincerely Yours,

Christy Chuang-Stein
